

Mozilla Firefox

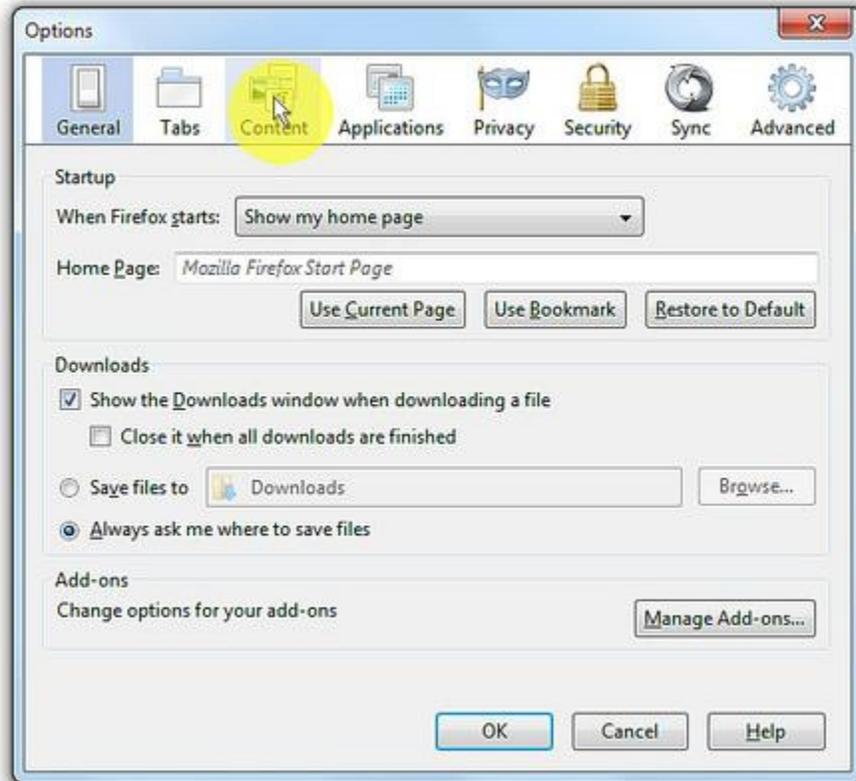

1. In the address bar, type about: config and press Enter.
2. Click "I'll be careful, I promise" if a warning message appears.
3. In the search box, search for javascript.enabled.
4. Toggle the "javascript.enabled" preference (right-click and select "Toggle" or double-click the preference) to change the value from "false" to "true".

Mozilla Firefox < 23

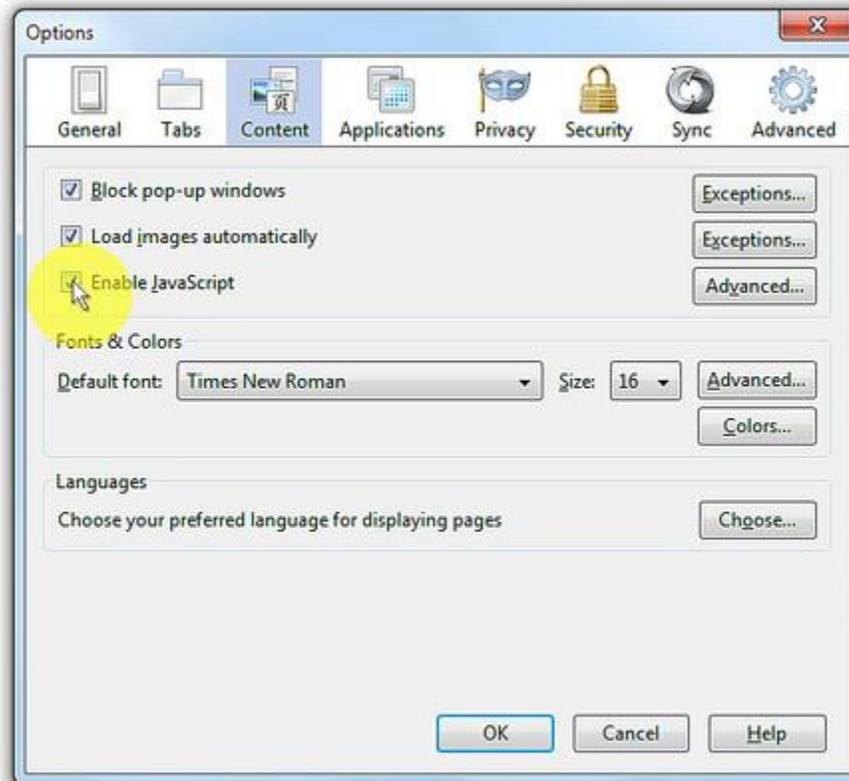

1. On the web browser menu click "Tools" and select "Options".

2. In the "Options" window select the "Content" tab.

3. Mark the "Enable JavaScript" checkbox.

4. In the opened "Options" window click on the "OK" button to close it.

5. Click on the "Reload current page" button of the web browser to refresh the page.
